SUMMARY

I am a performance-driven Java Developer with over five years of experience in designing, developing, and maintaining scalable applications. I have expertise in Java, backend development, and API integration which enhances problem-solving capabilities, delivering efficient and reliable software solutions. I am passionate about building high-quality applications and dedicated to continuous learning

EXPERIENCE

Java Developer

Safedot E Solutions Pvt. Ltd

📅 05/2024 📍 Panchkula

Company involved in software solutions

- Contributed to the modernization of the Crime and Criminal Tracking Network & Systems (CCTNS) Core Application Software (CAS) for efficient crime and case management
- Designed, developed, and maintained RESTful APIs along with optimized database queries for secure and efficient crime data processing
- Implemented security measures including encryption and role-based access control (RBAC) to protect sensitive criminal records
- Performed testing, debugging, deployment, and production support activities while handling help desk issues to ensure smooth application operations

Java Developer

Telemane Telesystem LLP

📅 09/2023 - 04/2024 📍 Mohali Punjab

Telecommunications software solutions provider

- Worked on the development and enhancement of FlyTxt applications for offer management through USSD, IVR, and Mobile App platforms, enabling real-time customer event processing
- Developed and maintained RESTful APIs using Spring Boot and Spring Framework to support seamless system integration and data flow
- Designed and implemented scalable technical solutions, ensuring application performance, reliability, and efficient service delivery

Java Developer

Resonantia Technologies

📅 12/2020 - 08/2023 📍 Pune

An organization focused on technology solutions

- Worked on the Beep Call System to manage low-balance call scenarios by triggering missed call and SMS notifications between users
- Developed and maintained RESTful APIs using Spring Framework to support seamless communication and service processing
- Collaborated with clients to understand requirements and provide effective technical solutions aligned with business needs
- Wrote clean, maintainable code and designed database structures as per project requirements to ensure efficient application performance

EDUCATION

BE

DIEMS

📅 08/2017 - 06/2020

Diploma

MSBT, Chatrapati Sambhajnagar, Maharashtra

📅 08/2014 - 06/2017

KEY ACHIEVEMENTS

Application Security and Efficiency

Contributed to major projects that enhanced the efficiency of application processes and security measures

SKILLS

Gmail Java JavaScript TypeScript

HTML XML JSON REST

Angular Java Spring Hibernate

Microservices Jasper Reports

Eclipse NetBeans Git GitHub

SVN Linux Encryption HelpDesk

IVR SpringBoot Dataflow
